Wendy Sandler

On-line Proceedings of the  
Tenth Mediterranean Morphology Meeting (MMM10)  
Haifa, Israel, 7-10 September 2015

## **The MMM Permanent Committee**

Jenny Audring (Leiden University)

Geert Booij (Leiden University)

Nikos Koutsoukos (Université catholique de Louvain)

Francesca Masini (University of Bologna)

Angela Ralli (University of Patras)

Sergio Scalise (University of Bologna)

ON-LINE PROCEEDINGS OF THE  
MEDITERRANEAN MORPHOLOGY MEETINGS  
ISSN: 1826-7491

## Table of contents

Foreword .....	v
Abstracts .....	vi
<b>Suspended affixation with derivational suffixes and lexical integrity</b>	
Faruk Akkuş .....	1
<b>The Semitic templates from the perspective of reciprocal predicates</b>	
Elitzur A. Bar-Asher Siegal .....	16
<b>Motivated phonological templates in Sign Language</b>	
Gal Belsitzman, Wendy Sandler .....	31
<b>The morphosyntax of definiteness agreement in Neo-Aramaic and Central Semitic</b>	
Edit Doron, Geoffrey Khan.....	45
<b>Telicity makes or breaks verb serialization</b>	
Kazuhiko Fukushima .....	55
<b>The role of stem frequency in morphological processing</b>	
Hélène Giraud, Serena Dal Maso, Sabrina Piccinin.....	64
<b>“Romanes eunt domus”: where you can go with Latin morphology</b>	
<b>Variation in motion expression between system and usage</b>	
Claudio Iacobini, Luisa Corona .....	73
<b>Morphology: the base processor</b>	
Aysun Kunduracı, Aslı Göksel .....	88
<b>Lexical blends and lexical patterns in English and in American Sign Language</b>	
Ryan Lepic .....	98
<b>Grammaticalization is not the full story: a non-grammaticalization account of the emergence of sign language agreement morphemes</b>	
Irit Meir .....	112
<b>A paradigmatic analysis of the Italian verbal derivation</b>	
Fabio Montermini, Matteo Pascoli .....	125

<b>A comparison of roots as units of analysis in Modern Hebrew and Spanish: exploring a remnant approach to defining roots</b>	
Ignacio L. Montoya .....	136
<b>Inflected and periphrastic features: issues of comparison and modelling</b>	
Gergana Popova .....	146
<b>The lexicalization of complex constructions: an analysis of adjective-noun combinations</b>	
Marcel Schlechtweg, Holden Härtl.....	159
<b>Spatial reduplication in Sicilian: lexicon or grammar?</b>	
Giuseppina Todaro, Fabio Montermini .....	169

## Foreword

Since 1997, the Mediterranean Morphology Meetings (MMM) have been jointly organized by Geert Booij (Leiden University), Angela Ralli (University of Patras), and Sergio Scalise (University of Bologna). As of 2013, organization is in the hands of Jenny Audring (University of Leiden), Nikos Koutsoukos (Université catholique de Louvain / University of Patras) and Francesca Masini (University of Bologna). MMM10 was made possible thanks to the excellent local organizing committee chaired by Wendy Sandler (University of Haifa).

The aim of MMM is to provide an informal setting for morphologists to present and discuss their work. The single-session setup guarantees maximal interaction between researchers, and gives young linguists the chance to present their work at a conference of moderate size, where fruitful contacts with senior linguists can be established. The first ten meetings – in 1997 (Mytilene, Greece), 1999 (Lija, Malta), 2001 (Barcelona, Spain), 2003 (Catania, Sicily), 2005 (Fréjus, France), 2007 (Ithaca, Greece), 2009 (Nicosia, Cyprus), 2011 (Cagliari, Sardinia), 2013 (Dubrovnik, Croatia) and 2015 (Haifa, Israel) – have proven the success of this formula.

In good tradition, this volume continues the MMM Online Proceedings series with a selection of papers presented at MMM10, which took place on September 7-10, 2015 in Haifa (Israel). Many good abstracts were submitted, the attendance was high, and a number of leading researchers participated, including invited speakers Stephen R. Anderson (Yale University), Mark Aronoff (Stony Brook University) and Ray Jackendoff (Tufts University). The editors of this volume wish to thank the many authors who submitted their papers to the MMM Online Proceedings and Nikos Koutsoukos for his constant support throughout the process.
